clover

Clover Suite of Solutions

MPX TEXAS
MERCHANTPRO EXPRESS

Official Clover Partner

Small businesses run better with Clover in their corner.

Our solutions are designed to be flexible enough to meet the unique needs of merchants.

Get Paid.
Clover makes doing business easier by providing merchants with the right mix of POS hardware and software to take credit cards, EMV® chip and contactless payments like Apple Pay® from customers, safely and securely.

Sell More.
Clover gives merchants the tools to pump up sales with both their new customers and their biggest fans.

Run Your Business.
Timesheets, payroll, marketing, accounting. Clover handles all the stuff merchants don't have time for, so they can focus on the stuff they got into business to do.

Value to our Partners

Clover's payments system allows you to concentrate on merchants' needs without the time and cost of compliance.

Open Platform.
When you semi-integrate with Clover, your point-of-sale can become EMV compliant quickly and easily.

Open APIs.
The API uses an asynchronous call model. Your point-of-sale initiates a request, Clover receives and processes the request, then provides a response. Each step of the transaction is reported to the point-of-sale. Plus, flows are completely customizable for your needs.

Contemporary Merchant Proposition.
Clover is not just an EMV solution, it's a payments-as-a-service platform. Give your point-of-sales more flexibility and get the ability to build customer-facing experiences that your merchants make stand out.

MERCHANTPRO EXPRESS

Clover Station

The all-in-one POS and payments system designed to be the pillar of a merchants business.

clover

Multi-layered Protection.

Integrated EMV® chip and signature payment, plus fingerprint sensor for login, boosts security.

Power to Do More.

Multi-task like a pro with 4GB RAM that can run multiple apps and enable faster transactions.

Easy to See, Easy to Sign.

Large, 14-inch HD display and swivel feature allows customer e-signatures and engagement.

Apps for That.

Over 20 pre-installed apps and access to Clover App Market helps you simplify daily tasks.

Clover Mini

A compact countertop POS with the guts to go big. Accept swipe, EMV chip, and NFC payments right out of the box.

Hardware That Scales.
Merchants can add more POS components and capabilities as needed.

Software That Multitasks.
Customizable with do-it-all apps for whatever a business needs.

Big display. Huge advantage.
With Clover Mini's large, bright touch screen, users see things more clearly than ever.

Print Receipts.
Keep things moving at the register by printing customer receipts on the spot.

MPX TEXAS
MERCHANTPRO EXPRESS
merchantproexpresstexas.com

Clover Flex

Free your hands, minds and countertops for the things that matter.

Off-site Sales.
Because it's LTE / Wi-Fi enabled, Clover Flex lets you accept payments outside of your store and on the road.

Pay at the Table.
Process a card, print the receipt, get a customer signature, and tip adjust without missing a beat.

Built-in Functionality.
Clover Flex is packed with features like a printer, camera, and 1D/2D barcode scanner.

Get Paid.
Accept the latest payment types, including EMV chips or NFC payments like Apple Pay.

Clover Accessories

Clover accessories mean that we can provide a broad range of functionality to our merchants.

Printers
From printing receipts to the kitchen to printing on the go, Clover accessories has you covered.

1D/2D Barcode Scanners
Our Clover-customized scanners can capture barcodes and QR codes from paper labels, on screens, and more.

Swivel Stand
Turn your Clover Mini around with ease and let customer swipe, dip, or tap using the swivel stand.

Weight Scale
Merchants who sell their wares by weight can speed up checkout with the customized Clover weight scale.

Clover Security

clover

Every transaction, from swipe to finish, is protected by technology from First Data, a leader in payment processing.

Data Protection.
The latest end-to-end encryption and tokenization technology to help protect customer data from the moment their card is swiped.

Reduces PCI Compliance Burden.
With the PCI Rapid comply solution, a simple, online PCI compliance wizard, helps merchants adhere to the latest security standards.

Minimizes Liabilities for Merchants.
In the event of a data breach, get a liability waiver of up to $100,000 for card association fines and expenses.

Get Expert Guidance.
An additional level of client service expertise to address your security questions or concerns.

Clover Check Acceptance

Provides access to one of the industry's leading check authorization systems.

Offers More Payment Choice.
Allows merchants to accommodate customers who want to pay by check.

Lower Expenses, Faster Funding.
Enjoy lower processing fees when accepting checks. Plus, they're typically funded within two business days.

Reduce Risk.
Lessen chargebacks and significantly reduce fraud losses by shifting the responsibility of bad checks to us.

Simplify The Process.
Just take a picture of the check with your Clover device and it's accepted (or declined) within seconds.
